

Powerful Surface Measurement

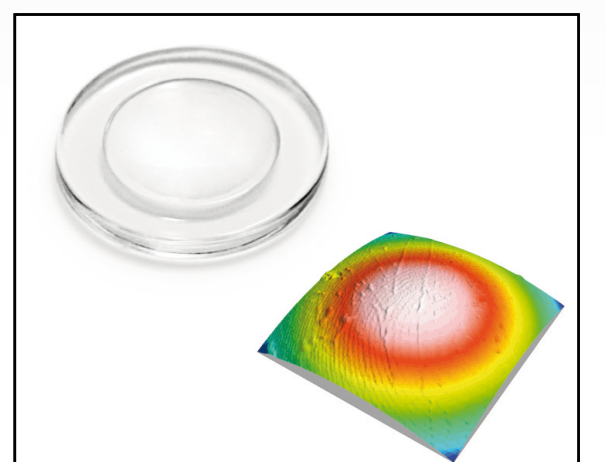

APPLICATIONS

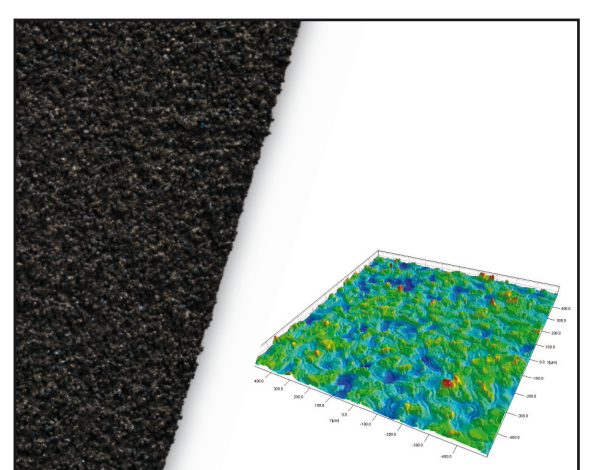

Quality control of a cobalt-chromium polished prosthesis surface (DHM S2)

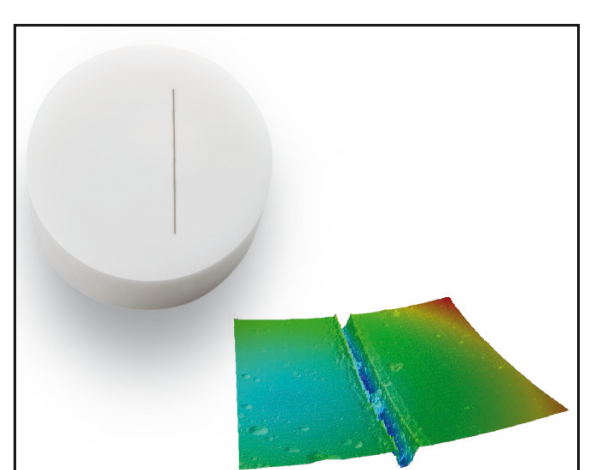

Analysis of a silicon microstructure (DHM S2)

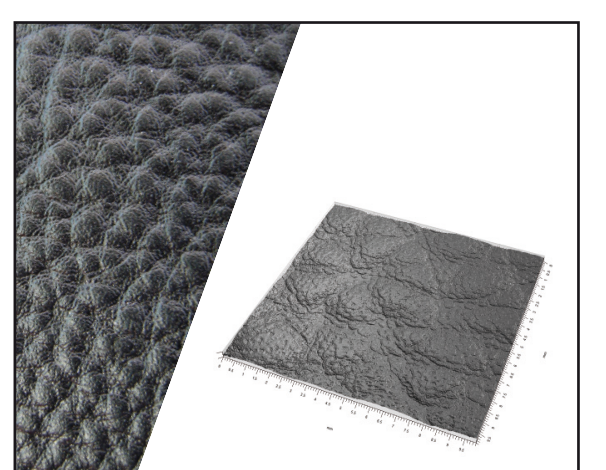

Roughness inspection of microlenses (DHM S2)

Surface texture analysis of an industrial abrasive material (CCM P1)

Depth measurement of a laser engraving on ceramics (CCM P1)

Topographic analysis of a leatherette sample (CCM P1)

Measurement of macroscopic surface textures (CCM P1)
